Planning and Assessment Division: Roger Koelpin

- 2007 LETPP WebGIS Grants status- Project is wrapping up. Thanks all. You may want to be sure that your quarterly reports are up to date – were due Jan 15.
- 2007 LETPP ACAMS\Critical Infrastructure Hardening Grants - Project is winding down.
- 2009 EMPG Metric-PCII\Critical Infra Data Retention- That agency has set desired schedules in the December 2010 retention schedules for adoption by local\county gov'ts @ http://www.in.gov/icpr/files/GEN_2010-12.pdf
- Your county public records commissions can adopt. Please check with either

the judge of the circuit court,
the president of the board of county commissioners,

the county auditor,
the clerk of the circuit court,
the county recorder,
the superintendent of schools of the school district in which the county seat is located and
the city controller of the county seat city, and
if there is no city controller, then the clerk-treasurer of the county seat city or town to see
if your county public records commission will meet to adopt the updated schedule by July
1, 2011. If so, or if they already have, send your district coordinator the minutes of that
meeting adopting the Dec 12 2010 (or later) updates and you get this metric.

- 2010 LETPP GIS Grant warning- The state will be doing the aerial photography again. It is a 3 year update cycle. So at some point in the coming 3 years, you will get updated imagery. Base product resolution is 12 inches. Buy up – same deal as last time but run through IOT, is only going to be around \$40k this time. If your county is interested contact Jim Sparks at IOT; 317-234-5889
- 2010 LETPP ACAMS\CI Grant warning- Another round is on its way. I need some more fiscal agents. Please let me know if you are interested in managing this. You will be entering budget items for more assessments and capability enhancements needed based on those assessments.
- 2011 ACAMS\CI proposals – I can do one more round on Districts' behalf. If you already have something in the works based on unfunded needs already identified, let me know so we can “make room” for it in iGMS.
